Sits Up, Feels Better

The President's Plans

Tainted Football

Another Big Airheat

Wall Street felt better, sat up and took notice, feebly. The question is not "What has happened to those that gambled, in spite of warnings?" but "What, if anything, has happened to the nation, and its general prosperity?"

No buildings were burned down, no industries have died, no mines, railroads, steel plants have vanished. Paper profits have been reduced to scraps of ticker tape. That's all.

And, as one solemn banker said, "Many will now do more useful work than watching the ticker or the brokers' blackboard."

The most pathetic were the women speculators, amazed to learn that prices can go down.

Chicago describes them weeping hysterically in La Salle street.

Scientists ask what has become of the Leonids, a swarm of meteors that have appeared in dazzling brightness about once in thirty-three years for more than thousand years past.

They failed to come around when last due, and there is no sign of them now.

Our giant neighbor, Jupiter, may have absorbed them, as whales with wide open mouths absorb tiny creatures in the ocean.

Big things live on little things, even in cosmic space.

President Hoover's plan for a great system of inland waterways realizes in prospect, the hope of those that welcomed an able engineer to the White House.

Total expenditures planned will amount to \$25,000,000, and every dollar spent will pay for itself ten times over.

The President observes that the annual increase in expenditures will amount only to the cost of one-half of one battleship.

The President might have added that in modern war the whole of one battleship would be worth less than one-half of 10 cents, since battleships are now merely targets for submarines and airplanes, worth nothing, except to battleship builders.

The Carnegie foundation says college football is "tainted with money." Free teaching and cash bonuses are given to young men that can kick hard, run fast and tackle savagely.

It would be more pleasing if colleges sought great teachers as eagerly as they seek great quarterbacks.

But no great harm is done. The games and great crowds arouse young men's interest in college life and give college education to young men from rolling mills and rear ends of ice wagons, that might otherwise remain uneducated.

Progress in flying advances rapidly in Europe. A few days ago Germans showed a gigantic hydroplane, with twelve engines, flying, carrying 160 passengers and crew.

Great Britain is building a plume of the same size, a triplane. Instead of a biplane, also with twelve engines, to go faster.

Henry Ford was the first to talk about 12-engined plane, "to carry 100 people, with a machine shop on board." The Germans and the British build the planes.

The Swiss parliament, elected by a moral and serious nation, proposing a law to punish blasphemy, suggests six months in prison for those that "orally or in writing insult God."

Blasphemy should be punished because it sets a bad example and shows want of respect for the feelings of others.

But is it possible for any two-legged human-microbe on this planet "to insult God?"

If the mice proposed to punish any mouse insulting Edison, you would say, "Mice, don't worry, you can't insult Edison."

How much less can any man insult the Creator of the Universe?

The nation read with affectionate sympathy of Mr. Edison's visit to Dearborn, where Henry Ford has rebuilt it as it was in old days the simple Edison laboratory to which men owe so much.

Mr. Edison was deeply moved when he saw his old tools, the chair in which he sat in his early youth, his primitive paraphernalia resembled as used fifty years ago when he developed the idea that now lights the world.

Every old man can share Mr. Edison's emotions. The human heart is the same with or without genius to lend it a great name.

A million among those that see this column carry with them memories of youth—a sassafras hickory tree standing alone in the field; a grove of chestnut trees with yellowish green burs open, showing the brown nuts within; a bird that held "shiners" and catfish a swimming hole—happy memories of a free life and boundless hope.

SCHOOL OFFICERS MEET NOV. 5TH

The school officers' meeting for Crawford county will be held on Tuesday, November 5 in the court house in Grayling. The meeting will begin at 9 o'clock Central Standard time.

It is the duty of all members of school boards to attend these meetings. All necessary traveling expenses of all members of school boards shall be paid from the general fund of the district.

School officers' meetings are held but once in each two years.

In order that these meetings may accomplish the object for which they are held, it is necessary that all school officers be present. At your meeting this year all phases of school law, the administrative work of school officers, and topics of general interest to school officers, teachers, and patrons will be discussed.

These school officers' meetings afford an opportunity once in two years for all school officers, county commissioners of schools, and a representative of the Department of Public Instruction to meet and discuss personally those questions and problems that have to do with the work of the schools.

Mr. Roy Noteware, Assistant Superintendent of Public Instruction, will conduct the meeting. He will discuss school law, state administration, and topics of general educational interest. The county commissioner is expected to take some of the time in discussing with his school officers the questions and problems that have to do with the work of the schools of the county.

This meeting will begin promptly at 9 o'clock a.m. Central Standard time and close at 11:45. Then we shall try to have the afternoon session begin at 12:45 and close at 1:45. Please remember the date, November 5th. JOHN W. PAYNE, Commissioner of Schools.

CAN'T BAT PAINT

A one-month-in-the-summer resident asked what Grayling needed most. replied, "paint." You can't eat paint unless you're a Billy goat. Who wants to be a goat of any kind? This man was here in summer; everybody working and happy. We don't need paint now we need industries—"work," "wages," "food," "fires," "warm clothing," "good beds."

What is the matter with the landlords? Do they need glasses? Maybe they thought paint was needed and used paint. If they were mistaken, why ask the other fellow to pay for it?

Industries going to lower rent localities. What is the matter? This is your town. Ask questions! Find out!

Contributed.

HOOVER TO THE RESCUE

To avert a nation-wide panic the President of the United States was forced to step into the breach and assure us the nation was financially solvent and fairly prosperous.

His was the hand stretched out to calm the storm that had already swept away billions of dollars in profits (paper profits from the lambs flitting with Wall Street), and was threatening to continue until every legitimate business might be submerged in the heavy bow of the tide.

In doing this President Hoover is not misconstruing inflation for prosperity. He is well aware that without gambling this country is in no immediate danger but he knows also the time has come when the nation should be content to get its feet back on the ground, quit gambling and go to work.

Good advice—if well taken.

Edison and President and Mrs. Hoover at Detroit celebration of light's golden jubilee, on replica of old train on which Edison was a news butcher.

WHEEL CO. TAKES OVER GAYLORD PLANT

THE REPORT CARD

(By Grayling Public Schools)

DO'S AND DON'TS FOR DEER HUNTERS

Senior Give Hallowe'en Party

The High School Gym was the scene of much merrymaking last Friday evening when the Senior class gave the first public party of the school year a Hallowe'en masquerade dance.

The gym was appropriately decorated in orange and black crepe paper with Hallowe'en figures and corn stalks scattered about.

The dance began promptly at 9:00 and continued until 12:00. About the middle of the evening the grand march was led by the four Tars, Mary Esther Schumann, Elizabeth Matson, Pauline Lietz and Jane Keyport.

A wheel was shown and explained, and though it is an entirely new departure to anything in the past, there are real possibilities of its being a success. The wheel is constructed of two solid disks bolted together. Instead of spokes there are about twenty tension springs. The tire is of solid fabricated rubber, guaranteed to outwear anything yet placed on the market.

In explaining the proposition Mr. Linendoll spoke of the other spring wheels that have been attempted, pointing out their weak points, and how it has been overcome in this product. He claims for it that it will ride with the ease of a pneumatic tire, at all times. With the pneumatic tire it seems that great air pressure must be carried when a truck is loaded heavily. When empty the truck is a hard riding vehicle, but with his wheel, the springs take the place of air and give the same riding comfort as with a load.

These wheels have been made in the west and tried out. Men who have used them are more than satisfied with the product, and predict a large demand as soon as their advantages are known.

Last week Mr. Linendoll and son Bert Linendoll were in Gaylord where they completed arrangements for taking over the plant. John Harrington has been employed to take over the repair work of the building, and it is said that new glass and reading has been ordered to take the place of the broken panes of glass and the leaky roof.

Student Council Reorganized

The Student Council of the G.H.S. has been reorganized this year. Last Thursday, representatives from each low grade were elected, one from the student body at large and two elected wait until morning. Don't tire your self out walking in circles. Always carry a compass and matches.

Members at Large—Rudolph Harrison, Elizabeth Matson. Senior Representatives—Helen Woodburn and Donald Koiwon. Junior Representatives—Loretta Sorerson, Jerome Kesseler. Sophomore Representatives—Fern Lovely and William Foley. Freshman Representatives—Myron and Wilma Burrows.

Eighth Grade Representatives—Matilda Engel and Emil Kraus. Seventh Grade Representatives—Clara Atkinson and Donald Gothro.

Monday, the first meeting was held to elect officers. Elizabeth Matson, Pres.; Myron Burrows, Vice Pres.; Loretta Soreson, Sec.; Donald Koiwon, Treas.; Sergeant at Arms, Rudy Harrison.

Meetings will be held according to parliamentary rule. Wednesday night will be the first meeting of importance. The Student Council is starting out in the right spirit this year and it is hoped that Grayling's council (Continued on last page)

10:30 a.m. "Our Heritage."

7:30 p.m. "The Sanctuary."

Dr. F. B. Johnston of Detroit will preach at both services. Dr. Johnston is our popular Secretary of the Board of Conference Claimants, and comes to us at the suggestion of the pastor.

He will also speak in Church School and League.

Faint Yet Pursuing

I want to let go. But I will not let go.

I am sick, it is true, and dis-

couraged and blue;

Worn out through and through,

But I will not let go.

I want to let go. But I will not let go.

I am poor and perplexed, dis-

turbed and vexed.

Care not what comes next. But I will not let go.

I want to let go. But I will not let go.

There is work to be done, a race

to be run, and I will not let go.

A crown to be won and I will not let go.

I want to let go. But I will not let go.

There are battles to fight by day

and by night,

For God and the right, and I will not let go.

I want to let go. But I will not let go.

Be this ever my song: "Against

legions of wrong,

O God, make me strong, that I may not let go."

Selected.

Local Happenings

Mrs. John Zeder and son Jack spent the week end in Bay City.

Russell Peterion and Lester Olson spent Thursday in Bay City.

Sam Collen of Detroit was here over Sunday on a hunting trip.

Miss Rosalyn Lewis visited at her home in Gaylord over Sunday.

Daniel Green's Comfy slippers are the world's best Olson's Shoe Store.

Mrs. Marguerite Montour spent Thursday in Bay City visiting friends.

Don't forget the American Legion Auxiliary bake sale on November 9th.

Mr. and Mrs. Henry Bousson visited relatives in Standish and Pinconning Sunday.

Mrs. Dorothy Johnson and Elsie Mae LaMotte went to Bay City Saturday returning Sunday.

Mrs. George Burke left last Wednesday for a few days visit in Bay City, Detroit, and Toledo.

Mr. and Mrs. George Henning of Trout Creek, Michigan, visited Mr. and Mrs. Fred Lamb yesterday and today.

Holger Hanson has returned to his duties at the bank after a two weeks vacation spent in Detroit and other places.

Morgan Paige enjoyed a visit over the weekend from his daughter Miss Marion Paige and Mr. Barron Smith of Virginia. Lewis is a graduate of the U. of M.

Buy shower boots for women and children in black, gunmetal and brown at OLSON'S.

Remember ladies, Mr. Bell with Levine dresses, Saturday, Nov. 2, at Cooley's Gift Shop.

The Saginaw Amusement Club will give a dancing party at Temple Theatre Saturday night, Nov. 2. Everyone cordially invited.

Fred Malafant of Cheboygan visited at the home of his nephew, Wilfred Laurant, Sunday. Mr. Malafant is city clerk in Cheboygan.

There will be a regular meeting of Grayling Chapter O. E. S. No. 83 on November 9th. There will be initiation and report of the grand chapter meeting.

Francis Brady was home from Detroit over the week end visiting his parents, Mr. and Mrs. John Brady. Francis is a student at the University of Detroit.

The I. O. O. F. will give a card party Friday night at the I. O. O. F. Temple. Everybody welcome. A small admission charge will be made to defray expenses.

Mothers, don't forget to bring your children to Room 18 at the school next Wednesday, Nov. 6 for the second dose of toxin-antitoxin. Hours 8:00 to 11:00 o'clock.

Mrs. George L. Alexander and son Fred motored to Midland Tuesday, returning Wednesday. They were accompanied by Mrs. Thomas Cassidy and daughter Mrs. Victor Thelton, who visited relatives there.

Mr. and Mrs. Julius Nelson and daughter Margaret and Mr. and Mrs. Anthony Nelson motored to Cadillac Sunday where they met Miss Olga who was returning from a visit with her sister Miss Anna in Grand Rapids.

Mrs. Hugh Kelly, daughter Margaret and two sons Francis and Dennis of Grand Rapids visited the Thos. Cassidy and Louis Kesseler families from Thursday until Sunday. Mrs. Kelly is a sister of Mr. Cassidy and Mrs. Kesseler.

Misses Beth Deming and Violet Williams of the Mercy Hospital Training School left for Detroit last night where they will complete their course in nursing, putting in three months at the Children's Free Hospital and the remaining time at Grace Hospital.

Our Gang sewing club met at the home of Mrs. Paul Feldhauser on the AuSable last Thursday afternoon. The ladies visited and played games and Mrs. Feldhauser served a very delicious lunch. The ladies said on leaving they would all like to be invited to come again.

Mrs. B. J. Callahan and son Jack were in Cheboygan this week where the former attended a reunion of her sisters. Besides Mrs. Callahan they included Mrs. Thomas Brennan of Saginaw, Mrs. Edward Sargent of Bay City, Mrs. J. Sullivan of Mackinaw, and Mrs. J. C. Rittenhouse of Cheboygan.

The shaving pit at the Kerr & Hanson flooring plant caught fire last Sunday evening and it was necessary to call the city fire department to help extinguish the flames. Quite often the shavings catch fire but are easily extinguished, but last Sunday it had been smoldering for several hours and resulted in quite a blaze. There was no material damage done.

As we go to press the 7th Annual Top O' Michigan Potato and Apple Show is being held at Gaylord. From all indications this Show will surpass any previous Show in its history. The 4-H Club buildings on the old Otsego County Fairgrounds has made possible the enlargement of this Show. A brief report of the Show will be contained in next week's papers, with a complete supplement covering all details of the Show to be issued on November 14.

Of interest to the people of Grayling will be the announcement of the engagement of Lewis Michelson, son of Mr. and Mrs. Frank Michelson of Detroit and Miss Constance Atwater Stanbrough, daughter of Mrs. Duncan Stanbrough. The announcement was made at a luncheon given by Mrs. Swayne at the new Colony Club Saturday to a party of 30 guests. The nuptials are being planned for November 21st. Miss Stanbrough is a graduate of Sweetbriar college in Marion Paige and Mr. Barron Smith of Virginia. Lewis is a graduate of the U. of M.

The Michigan Public Service Co., has added another town and another hydro-electric plant to its string of holdings. A deal has been completed for the purchase of the East Jordan Electric and Power company. One of the first things on the program of the company relative to its new property was to be the tying in of the East Jordan plant with the 33,000 volt transmission line which extends from Cheboygan southward. As a result power from East Jordan can be fed to other points of the company's territory at occasion needs.—Gaylord Herald Times.

Of interest to many Grayling friends will be the news of the marriage of Miss Ellen Johnson, daughter of Mr. and Mrs. Wilhelm Johnson of Gerrish Township, Roscommon to Mr. Carl Carlson. The ceremony took place on October 16th at Gaylord, Rev. Osborne, pastor of the Baptist church tying the knot. The young couple returned to Roscommon Monday after a honeymoon spent motoring in the Upper Peninsula and will be at home in that city. Mr. Carlson is engaged in the hay and feed business in Roscommon and is also interested in a similar business in Grayling which is in charge of Andrew Brown. The bride is a graduate of Mercy Hospital Training School for nurses.

The funeral of Harold Thomm, who passed away last Thursday was held Monday morning with services at Michelson Memorial church at 9 o'clock. Rev. J. W. Greenwood officiated while Mr. E. H. Webb and Mrs. C. G. Clippert rendered a couple of duets very beautifully. Mr. Thomm being a member of the Masonic Lodge of Port Arthur, six local brother Masons acted as pallbearers. Following the services the remains were taken to Wolverine where the Masonic Lodge of that place took charge. Interment took place in the Wolverine cemetery. Mr. Thomm was born April 28th, 1886 in Detroit and made his home in Pt. Arthur where he was chief dispatcher for the Canadian National railroad. The deceased is survived by his wife who was formerly Miss Blanche Cardinal.

Tonight is Hallowe'en.

When you think of rubbers think of Olson's.

Be sure and attend the dance Saturday night at the Temple Theatre given by the Saginaw Amusement Club.

Marius Hanson is assisting in the Saginaw Amusement Club will give a dancing party at Temple Theatre Saturday night, Nov. 2. Everyone cordially invited.

Fred Malafant of Cheboygan visited at the home of his nephew, Wilfred Laurant, Sunday. Mr. Malafant is city clerk in Cheboygan.

There will be a regular meeting of Grayling Chapter O. E. S. No. 83 on November 9th. There will be initiation and report of the grand chapter meeting.

Francis Brady was home from Detroit over the week end visiting his parents, Mr. and Mrs. John Brady. Francis is a student at the University of Detroit.

Mothers, don't forget to bring your children to Room 18 at the school next Wednesday, Nov. 6 for the second dose of toxin-antitoxin. Hours 8:00 to 11:00 o'clock.

Mrs. George L. Alexander and son Fred motored to Midland Tuesday, returning Wednesday. They were accompanied by Mrs. Thomas Cassidy and daughter Mrs. Victor Thelton, who visited relatives there.

Miss Isa Granger invited a number of young ladies to her home last Friday evening to meet Mrs. Green of Milwaukee who has been spending a couple of weeks visiting her husband, Dr. Green. The evening was spent playing cards and other games, after which the hostess served a delicious lunch.

Local Council Knights of Columbus held installation of officers last evening at the American Legion hall. Mr. Emmett Richards, district Deputy of Alpena was the installing officer. Mr. Richards is editor of the Alpena News and tonight he is to act as postmaster at the Top O' Michigan Potato and Apple Show banquet at Alpena.

Sister M. Josephine and Sister M. Theodore, both of whom were on the management at Mercy Hospital a few years ago, but who now are located at St. Mary's Hospital, Grand Rapids, were here over Sunday. Having hosts of friends in Grayling they enjoyed visits and calls from many friends while here. They returned to Grand Rapids Tuesday and were accompanied as far as Cadillac by Misses Irene McKay, Nina Sorenson and Margaret Hemmingson.

Twelve young ladies and gents were guests of Misses Margaret Fehr and Clara Burch last evening at a delightful Hallowe'en party given at the home of the former. The home was in Hallowe'en dress with black cats and owls lurking in the corners, and pumpkin faces, bats, and witches finding conspicuous places. For amusement stunts were performed after each guest had drawn from a punch-board telling them what to do; fortunes were found in peanuts and other games were played. The hostesses served a delicious lunch.

The Sales cottage at Lake Marquette was the scene of a Hallowe'en party Monday evening, given by Mrs. Frank Sales and Miss Marian Reynolds. The guests, numbering four, came masked and upon arrival were led through the dark haunted house by two ghosts, ending up in the living room which was nicely decorated with fall leaves, jack-o'-lanterns and Hallowe'en novelties. Games and contests were enjoyed during the evening, for which prizes were given. Miss Ferne Armstrong was awarded the prize for the best costume. The hostesses served a lovely lunch, carried out in true Hallowe'en style.

Mr. H. M. Bell will show Levine dresses at Cooley's Gift Shop Saturday, Nov. 2.

They will be guests at the Letzkus home the remainder of the week and Sunday will be joined by Mr. Niederer returning home that day.

Ladies, you may select your own gown, from an assortment of about 150 of the newest models, Saturday, Nov. 2 at Cooley's Gift Shop. Levine models. None better.

Mr. and Mrs. L. J. Martin and son Edward were in Owosso from Thursday until Monday visiting friends. While there Mr. Martin enjoyed pheasant hunting getting the limit of birds.

For Statuary Hall

This heroic bronze of Jefferson Davis, the work of August Lukeman, is to be placed in Statuary hall in the Capitol in Washington, as the gift of Mississippi, the home state of the President of the Confederacy.

DIPPING INTO SCIENCE

Change in Measurement

A linear foot has not always been 12 inches in length. It originally meant the length of the human foot. The standard, however, has varied in different countries. England and America long ago adopted the 12-inch foot. This length was first established in England under Henry I. His arm was declared the standard yard and the foot was then made one third of a yard.

FORGETTING

Life is too short to remember the things that would prevent one doing his best.

"Forgetting the things that are behind, I press forward," said a brave old man in the first century.

The successful man forgets. He knows the past is irrevocable. He lets the past bury its dead. He is in too much of a hurry to attend the funeral of his hopes. He is running a race. He cannot afford to look behind. His eye is on the winning post.

The magnanimous man forgets. He is too big to let little things distract him. He forgets quickly and forgets easily. If any one does him wrong, he "considers the source" and keeps sweet. It is only the small man who cherishes a low revenge.

Be a forgetter.

Business dictates it and—

Success demands it.

VILLAGE ORDINANCE

STATE OF MICHIGAN
65TH LEGISLATURE
SESSION OF 1929

Introduced by Mr. Culver,
Bill No. 393. File No. 236.

HOUSE ENROLLED ACT NO. 129
An act to regulate the use, handling, storage and sale of fuel oil, and the arrangement, design, construction and installation of burners, tanks and other equipment for the burning of fuel oil for heating purposes in cities and villages adopting the provisions of this act.
The People of the State of Michigan enact:

Section 1. This act shall be in force and effect in such cities and villages as may, by a majority vote of the legislative body thereof, adopt its provisions. The provisions of this act relative to the storage, handling and sale of fuel oil having a flash point above one hundred thirty degrees Fahrenheit, shall apply only to the use of such fuel oil for oil burners as is specified herein.

Section 2. For the purpose of this act:

(a) "Fuel oil" shall mean any liquid used as fuel and having a flash point above one hundred thirty degrees Fahrenheit;

(b) "Fuel oil burners" shall mean any device, including burners, motors, piping, valves and other equipment designed and arranged for the purpose of burning fuel oil for heating purposes;

(c) "Tank" shall mean any container for such fuel oil, having a capacity of more than twenty-five gallons and directly or indirectly connected with such fuel oil burners;

(d) "Auxiliary tank" shall mean any tank between the storage tank and the burner delivering oil by gravity or pressure to the fuel oil burner or blower;

(e) "Storage tank" shall mean any tank for the storage of oil, connected through some approved means of suction feed, directly to the fuel oil burner or indirectly connected to the fuel oil burner through approved auxiliary tank;

(f) "Department of buildings and safety engineering" shall mean the department of buildings and safety engineering of such city or such other department as may be designated by the legislative body thereof;

(g) "Bureau of safety engineering" shall mean the bureau of safety engineering of the department of buildings and safety engineering of such city or such other bureau as may be designated by the legislative body thereof;

Section 3. Before any fuel oil burners, tanks and other equipment pertaining thereto shall be installed within such city, the owner of such premises or his agent, shall obtain from the permit department of the department of buildings and safety engineering, a permit for the installation of such fuel oil burners and equipment and for the storage and use of fuel oil for the operation thereof. Upon issuing such permit the said department shall issue therewith a temporary tag to be attached to the fill pipe of the tank of such equipment until the Bureau of safety engineering shall cause such equipment to be inspected, and if found to conform with this act, a permanent metal tag, properly numbered, shall be affixed by the inspector. The owners or occupants of premises on which fuel oil burners have been installed previous to the date on which this act becomes effective, shall obtain from the department of buildings and safety engineering within six months thereafter, a permit for the storage and use of fuel oil for the operation thereof. Such permit shall be issued by the department of buildings and safety engineering when such fuel oil burners shall have been inspected by the Bureau of safety engineering and found to be reasonably safe. The fees for permits required under the provisions hereof shall be designated by the board of rules.

Section 4. No person or persons, firm or corporation, shall supply with fuel oil any tanks or containers for fuel oil burners unless such fuel oil burners and equipment shall have been approved as provided herein and permit tag attached to the filler pipe of such tank or containers in the manner herein specified.

Section 5. Fuel oil for equipment installed under this act shall have a flash point of not less than one hundred thirty degrees Fahrenheit and no oil or liquid may be used which when tested in the open air, at a temperature below one hundred thirty degrees Fahrenheit, or below one hundred twenty-five degrees Fahrenheit when tested in a closed cup tester, gives forth inflammable vapor or gas.

In determining the flash point of oil, a tester as required by the department of buildings and safety engineering shall be authoritative. Fuel oil shall not be mixed or blended except at a storage plant under competent supervision, nor shall waste oil be used except with the approval of the Bureau of safety engineering.

Section 6. The tests and investigations made by the department of buildings and safety engineering shall cover arrangement of parts, suitability of material, strength of parts, electrical control, thermostatic arrangement, sensitiveness of automatic features, positiveness of ignition, safeguards against flooding, possibilities of explosion and hydrostatic or air pressure testing of storage tanks.

Section 7. Oil burners shall be equipped with such approved device, mechanical or electrical, which will automatically prevent the overflowing of the burner. Burners shall be designed to prevent excessive carbonization and shall be easily attached and supported.

Section 8. All burners subject to automatic ignition must be provided with permanent automatic device, so designed that oil, upon being turned into the combustion chamber, will ignite or automatically shut off.

Section 9. Standard full weight annealed iron, galvanized iron or steel or copper pipe, shall be used through underground piping, shall be insulated or copper or brass. The supply pipe or pipes shall not be less than one-half inch in diameter. Insulation shall be ground type, soft packed, setting with faces of metal. Flanges or packed joints shall not be used. Valves shall be constructed so that the stem cannot be withdrawn without the operation of hand wheel. The packing gland shall be provided with a separate shoulder and threaded with a beveled contact space for the compression of the

valve anti-explosion device. Where a pump is used between the storage tank and the auxiliary tank a pressure relief valve shall be installed in the supply line, so arranged as to return any surplus oil to the storage tank. Supply pipes must extend to within not less than two inches from the bottom of the tank and must be provided with an accessible control valve inside the building between the tanks and the burner. All pipe connectors, except for gravity flow, shall be made from the top of the tank.

Section 10. Electrical installations used in connection with oil burning devices shall be installed in accordance with the rules adopted by such city and be inspected and approved by the department of buildings and safety engineering.

Section 11. No damper shall be permitted in the smoke pipe or chimney from the device heated that may restrict to a dangerous extent the passage of fumes or gases. Ventilation shall be provided to prevent the accumulation of any trapped vapors below the combustion chamber. Complete instructions in regard to care and operation of the oil burning equipment shall be posted near the apparatus installed. The instruction sheet so posted shall include the specifications for the gravity and limiting flash point of oil suitable for use in the burner. All cards of instructions must be posted at time of installation. Near the entrance to the furnace room, and so located as to be convenient for use in emergency, there shall be provided a suitable hand extinguisher of approved type.

Section 12. Oil storage tanks on the inside of any building shall be located in the lowest story, cellar or basement. A total storage of five hundred fifty gallons shall be permitted inside of any building but not more than two hundred seventy-five gallons shall be permitted in any one storage tank. Where more than one storage tank is installed such tanks shall be connected to the main feed pipe leading to the auxiliary tank, or if no auxiliary tank is used, such storage tanks shall be connected with the main feed pipe leading to the burner, with a manually operated three-way valve so that not more than one tank can in any way discharge its contents at one time. In cases where conditions make it impossible to install tanks outside building, it shall be permissible to install tanks of larger capacity inside buildings subject to the regulations of section thirteen hereof. Tanks shall be constructed of galvanized iron or basic open hearth steel or wrought iron, not less than fourteen gauge. All joints shall be welded, braze riveted. The tanks shall be reinforced with a wedged or riveted reinforcement where connections are made.

A boat was trapped there last week by officers, which dragged a heavy log two miles into a swamp, where it was overtaken and killed. It weighed 480 pounds. One day the first of last week some men saw a bear enter Grand Lake for a swim. Getting into a boat they chased him across the lake, enjoying a lot of thrills.

TOO MANY BLACK BEARS

Presque Isle county is having a lot of trouble with the black bears in that section. Conservation officers are kept busy responding to calls from farmers who have had a sheep or other farm animal killed by these mardars.

A bear was trapped there last week by officers, which dragged a heavy log two miles into a swamp, where it was overtaken and killed. It weighed 480 pounds. One day the first of last week some men saw a bear enter Grand Lake for a swim. Getting into a boat they chased him across the lake, enjoying a lot of thrills.

HE HAD A BOTTLE

BY THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

They were talking about England and what that small country has accomplished in power and influence.

"What one thing has helped more than anything else?" one of the older men asked. "To put England where she is today?"

The boy to whom the question was put thought a little while seriously and then answered:

"Respect for law, I think."

He was quite right. No one who has kept his eyes open in London, for instance, can help but be impressed with the reverence of the Englishman for the law and for those who are delegated to enforce it. A policeman in America is often a joke and a by-word. In England he is respected, loved almost, and his raised hand is the hand of God. He is the friend of children and of the crippled and the unfortunate; he is a haven of safety for strangers and his word, given to him, is to be honored.

Three men were sitting in the observation car as I rode up to Minneapolis. They were beyond middle age; they were evidently experienced, and I gathered from their conversation that they were officials of the road. As we rode along they pointed out the one to the other, where change should be made, where some subordinate had, perhaps, made errors in carrying out regulations. A fireman stoking an engine, as we halted at a division point, was wasting coal and breaking some regulation evidently, which had been laid down for his guidance. One of the men took the number of his engine, and I knew that some one would sooner or later hear about the dereliction. Law should be obeyed.

The oldest man of the group rose, finally, to go to his compartment.

"What did you do with my overcoat?" he inquired of his companion. "I have a bottle in the inside pocket and I shouldn't want it broken."

He winked knowingly at the other man and whispered something interesting into his ear, and they went off together. I had seen him the night before sitting half drunk in the smoking room, mumbling incoherently, a glass of liquor in his hand too steeped with drink to set the glass down or to finish its contents. No one better than he could realize the danger of one of his engineers or firemen or brakemen violating the prohibition law, but for him it was all right, the matter of a joke in fact. His attitude explains a lot of anomalies in American life. We do not respect law, though we expect the other man to do so. We want ourselves to cling to it.

If you are not satisfied with your home town, or if you have the idea that it could be made better, then why not make your criticism constructive—why not make public a remedy for the ill you point out? If you want to take the lead in anything in the way of improvement you can always find someone willing to help. But don't find fault without suggesting a remedy. That's unfair to both yourself and your town and will neither help the town to be better nor elevate you in the estimation of its citizens.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO.

Thursday, November 1, 1906

Uncle Dan Waldron's friends helped him celebrate the 77th anniversary of his birth last Saturday. May he live to celebrate many more.

Dr. and Mrs. C. C. Wescott and the boy have returned from a delightful outing with friends in Ohio, and in Detroit and other cities in this state.

F. P. and Chas. J. Richardson were in town yesterday. They are marketing their fine crop of potatoes, not so many as they expected, a little more than the average in the county.

Geo. Mahon closed up his store for the present, last Monday and on Tuesday started for Ann Arbor where he will enter a law class to complete his studies in the profession, so as to be admitted to the bar.

A letter from W. B. Covert, now at Lead, South Dakota, reports two feet of snow on Oct. 21st.

Lara Brodin had another streak of bad luck last week in the loss of three fingers by a saw in the mill.

Dr. Underhill has probably 3000 bushels of potatoes yet to dig. Frost has touched them a little so they require careful sorting.

Geo. Olson is suffering from a fracture of his collar bone, received in a practice game of football. A fool game as being played, and dangerous.

Jas. Burton of Beaver Creek brot in a sample of his parsnips, which measured over four inches in diameter and over two feet in length. A dozen would make a meal for an ordinary family.

Word was received here Monday morning that the large dwelling on the Underhill ranch near Lovells was entirely consumed Sunday about noon with all its contents. Loss \$9,000 with only \$3,000 insurance.

The School Board have just installed a fire alarm in every room. Yesterday they gave the pupils their first unexpected alarm, and in a minute and a half every child was in line outside with no rush or excitement. Drill and discipline is of untold benefit.

Lovells Locals

J. E. Kellogg was doing business here Saturday.

Mr. Joseph Douglas has his house up and the sheeting on.

Mr. Walmer Jorgenson of Grayling was passing the cigars around Saturday.

Mr. John Everett of Grayling is shaking the saw and swinging the hammer on the new storehouse.

Geo. F. Owen, republican nominee for sheriff is from Friday.

The Children's Corner Edited by DOROTHY EDMONDS

LIGHTHOUSE ADVENTURES

PART II
"When I looked again where father had stood alone, there clung four men. They started scrambling over the rocks to the house. One fell and was picked up and carried.

"With a kind word my mother left me and ran down stairs. The wind was still blowing hard, and it had begun to rain again. All I dared think about was the bell. I had to keep on striking it, whatever happened. You know it's part of a lighthouse keeper's duty never to give up. I was a lighthouse keeper's son and this was my first test."

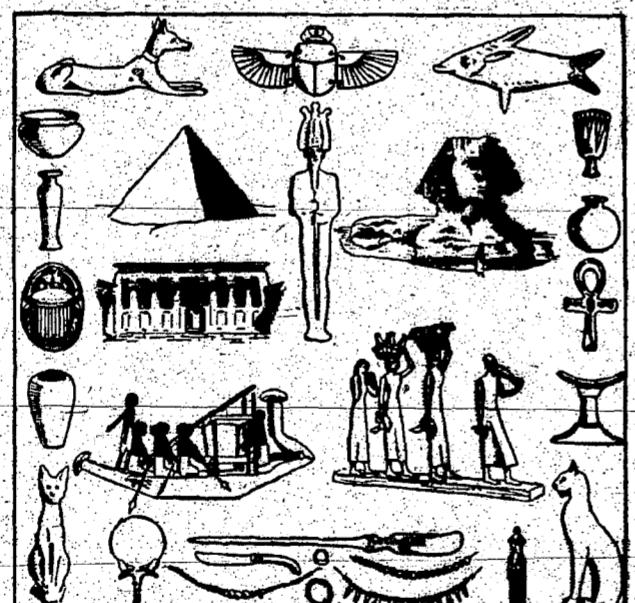

"I kept on striking the bell, twice every minute, making sure the clangs were loud and even. It seemed ages before I heard the door open, and my father appeared. He was dripping wet, and water was running even from his beard, but he looked happy."

"Run along now and get warm; he said to me. And he thanked me for helping."

"I was quite speechless as I climbed down the stairs into the kitchen. On the threshold I paused. Around the table sat three strange men. My mother was filling their cups from a steaming pot. How big I felt when I sat with them to drink my hot milk! I wanted to listen to their talk, but the sudden warmth made me sleepy."

and their voices rang to me through a haze of drowsy comfort. As I was carried off to bed I remember thinking, 'What things I will have to tell to mom in the morning!'

"The next morning I wanted to be up bright and early to be sure to see the men before they went ashore. My father said to new them over in the fury, because they couldn't stay long in the lighthouse. There wouldn't be enough food to go around. Light-house keepers were allotted just as much a meal for each person and none for others. Most of our supplies came from a little village a few miles away, the other side of the headland. We had never been over there once before. In the dark in the fury, I knew we would have to go that day because our food supply had become low during the stormy weather."

HOW WELL DO YOU KNOW EGYPT?

(Pick out the following features)
Ankh, the emblem of life.
Wooden Head Rest.
Bronze Cat.
Wooden Fish.

Goblet or Lotus Design.
Wooden Comb.
Scarab or beetles (charm for protection).

Pyramids.
Statue of Osiris.

Temple.
People carrying offerings.

Four vases.
The Sphinx.

Trinkets they had gathered in all parts of the world. They delighted us with stories of desperate encounters with savages, of shipwrecks and strange seas.

"Just in the middle of our excitement Father came from further conference about what should be done. Mother, he said, had made two bags of a piece of white cloth and a piece of red joined together, and tacked to the end of a stick. We were to take turns watching from the tower. As soon as a boat was sighted my father would tell the boys to wag-wag the signal or distress from the balcony of the light. Indian white animals also struck the bell. If this did not succeed in attracting the attention of the crew the men gave up, and settled them selves peacefully in the sun to rest for the next hour and try again."

"One of the Indians, a good-looking tomahawk-wielder, named Eric, was given first watch, and as a special favor, Jim and I were allowed to be his assistants."

"I was twisting, Eric was dancing, and Jim playing about his feet, when suddenly he pointed, 'Look, a boat!'"

(To Be Continued)

STRANGE EFFECT

"I kissed her when she had her eyes shut."
"Well, what happened?"
"I thought she was never going to open them again."

HAD BRIGHT EYES

Miss Dull—Don't you think Mr. Sapp's eyes show the kind of mind he has?
Miss Sharpe—No; Mr. Sapp's eyes are quite bright.

HIS WORSE HALF

"Yes, my dear, I heard him say he was going to buy a gold watch for his better half."
"I know that man had two wives. I wonder where his worse half lives?"

EASILY LIT

"Wonder what kind of match Ethel will make?"
"A good one—she's no easily lit."

ANYHOW HE WAS FIRED

"Just heard Jerry got fired out of the penthouse."
"Zzzz? Wonder what the trouble was?"
"Don't know, 'less he couldn't learn his lines."

HOW SHE LIKED THEM

Whispering smooches stage—
"How do you like cigarettes, Miss Goodie?" Miss G.—"Between a man's legs, like this!"

CONFISCATE 12 AUTOS

In three months conservation officers through the state have confiscated 12 automobiles because of learned sports, customs, and moral. By far the excess of the law; that such as everything the the opinions or ruling spirits of the community, who have the power to close any of these down; but that as long as they do not interfere, if, for instance, a man, is caught driving law, have recourse to these sources—John Chapman Gray.

French Town Center of World's Perfume Supply

It is in the belt of sun-soaked hills stretching from Cannes to Nice, France, where the true flowers wage incessant war against the coarse chisel odors of Germany.

The French are the world's expert perfumers. The little town of Grasse, tucked away in the heart of the Maritime Alps, is the most famous center of the industry, where all the perfumes of Europe are born. From January to December the rustic work by a sort of floral calendar, for flowers bloom in their millions the whole year through.

Violets, Jonquils, narcissus, golden tulip, muguet, carnations, spice-laden carnations, geranium, orange flower, lavender, Spanish broom, tuberoses and acaules with its blossoms of orange saffron.

Most of all, from May to July, the rose holds sway—then jasmine queen it. Jasmine, the only scent that cannot be obtained by a cunning mixture of other flower odors; jasmine, when mixed, often produces profound depression and exhaustion.

There are gardens everywhere, with millions of flowers for the making of perfume.

The quantities are indeed stupendous. During September, anything up to 10,000 tons of lavender, asphodel and tuberoses blossoms are collected and distilled. The average weight of blossoms gathered in a single summer is about 8,000 tons. Several million flowers are required to make a ton, so that the total number of flowers may be anything up to sixty thousand tons!

Caves Valuable, Apart from Scenic Splendor

The limestone caves at Waimoto in New Zealand bring tourists from every part of the world to see the extraordinary beauty of the glow-worm cavern with its myriad stars of phosphorescent fire. The Mendip caves of Somersetshire and the Peak caves of Derbyshire, England, have thousands of visitors yearly, and so has the Mammoth cave of Kentucky. The Mammoth cave had quantities of saltpeter in it which were dug and carried away for making gunpowder.

But many caves have a value apart from that of mere scenic splendor. In the bush country near Te Kuiti in Auckland a huge cavern, it which is a wonderful deposit of abalone, has been recently discovered. Another cave called the Carlsbad cavern, discovered under the Gaudinoupe mountains, in New Mexico, has great beds of rock salt. This place is said to rival the Mammoth cavern for size, one chamber being half a mile long, four hundred feet wide and more than three hundred feet in height.

Design Long Followed

The ratio 1:1.618, said to be the mathematical basis for beauty, has been used in residential designs for 3,000 years. It was applied in building the pyramids, and is considered the ideal proportion for living rooms, window openings, glass lights in windows, and so on. It is used by all designers in determining length in proportion to width.

This number, 1.618, is a puzzle. If you multiply it by itself, the result is 2.618. Multiply this by 1.618 and the result is 4.238. Is it coincidence that this last power of 1.618 is equal to the sum of the two preceding? A series of successive powers of this number carries out this same truth, any one power being equal to the sum of the two preceding.

Hours: 9:00 to 11:00 a. m., and 1:30 to 5:00 p. m.

Any information and first Proceedings in connection with this Court will be had at my office at Sorenson Bros.

STATE OF MICHIGAN The Probate Court for the County of Crawford.

At a session of said court, held at the probate office, in the Village of Grayling, in said county, on the 9th day of October A. D. 1929.

Present: Hon. George Sorenson, Judge of Probate.

In the matter of the estate of Jens Peter Jensen, deceased.

Andrew Jensen, a son of said deceased having filed in said court his petition praying that said court adjudicate and determine who were at the time of his death the legal heirs of said deceased and entitled to inherit the real estate of which said deceased died seized.

It is ordered, that the 4th day of November A. D. 1929, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Crawford Avalanche a newspaper printed and circulated in said county.

GEORGE SORENSEN,
Judge of Probate.

A true copy,
George Sorenson,
Judge of Probate.

10-10-4

UNITED STATES DEPARTMENT OF THE INTERIOR General Land Office

Washington
Sept. 19, 1929

TO WHOM IT MAY CONCERN:
Notice is hereby given that the State of Michigan has selected the following described lands with a view to acquiring title thereto in exchange for other lands which the State proposes to convey to the United States, as authorized by the Act of July 31, 1912 (37 Stat. 241).

Crawford County, all north and west of the Michigan Base and Meridian:

SE 1/4 NW 1/4, E 1/2 SW 1/4, W 1/2 SE 1/4
Sec. 2, NW 1/4 SW 1/4 Sec. 4, T. 26, R. 1;
E 1/2 SE 1/4, SW 1/4 SE 1/4, N 1/4 SW 1/4
Sec. 2, SW 1/4 NW 1/4, NE 1/4 SW 1/4
NW 1/4, SE 1/4, Sec. 12, T. 26, R. 2;
S 1/2 Sec. 8, E 1/2 NW 1/4, NE 1/4 SW 1/4
S 1/2 NE 1/4, SE 1/4 Sec. 18, NW 1/4
NW 1/4, S 1/2 N 1/4, S 1/2 Sec. 20, W 1/4
SW 1/4 Sec. 22, NE 1/4 Sec. 28, N 1/4
NE 1/4, SE 1/4, SE 1/4, SE 1/4
NW 1/4 Sec. 30, NE 1/4, E 1/4 SW 1/4
SE 1/4 Sec. 34, T. 27, R. 1; E 1/4
SW 1/4 Sec. 12, SE 1/4 NE 1/4, W 1/4
NE 1/4, NW 1/4, S 1/2 Sec. 14, N 1/4
SW 1/4, NW 1/4, SW 1/4 Sec. 20,
E 1/4 NE 1/4, NW 1/4, NW 1/4, W 1/4
SW 1/4, SE 1/4 SW 1/4, N 1/4 SE 1/4
Sec. 24, NW 1/4 NE 1/4, NW 1/4
Sec. 30, T. 27, R. 2.

Protests or contests against the selection of any of said lands for any reason will be received in this office at any time before final approval and certification of such selection.

(Signed) Thos. C. Havell,
Assistant Commissioner.

Now every home can afford a color-tiled bath and kitchen.

COLOR—the magic key to a charming home.

Cheerful color for the kitchen, where the average woman spends a third of her day.

Bright, joyous, delightful colors for samples.

Superior Quality Paints

Gloss Interior

ENAMEL FINISH costs less and combines beauty and perfect service.

In B. P. S. Gloss Interior Enamel Finish

We offer an easy working product that can be applied with the same effort and time as ordinary paint—but the results obtained are so superior that this finish is placed in a class by itself.

Follow the directions and we guarantee satisfaction.

Washable Flat Finish

for interior walls and woodwork. Although absolutely flat has a glass-like sheen, which makes it slow to soil and easy to wash clean.

We personally guarantee this to be fresh paint and therefore easy to stir. This is a very important point in flat paint.

Linoleum Lacquer

A pure water-white lacquer made especially for linoleums and floors. It is transparent and contracts with lino floor without cracking or peeling.

Its pure water-white transparency will NOT discolor the most delicate patterns.

Sorenson Bros.

The Home of Dependable Furniture.

THURSDAY, OCTOBER 31, 1929

Writer/Editor, See advertisement on page 2, E. C. Gilbert.

Miss Alyce and Mary Malpuske spent the week end in Detroit.

Wesley LaGree is home from Detroit for an indefinite length of time. Don't forget, Saturday, Nov. 2 in Levine dress day at Cooley's Gift Shop.

Warm dry feet is good health insurance. Prices reasonable at Olson's.

You are invited to attend the card party Friday night at the L.O.O.F. Temple Theatre.

Mrs. A. F. Gierke is visiting her daughter Mrs. Leo Lambert in Detroit for several days.

Mrs. Andrew Smith of Saginaw visited at the home of Mr. and Mrs. Nick Schjotz over Sunday.

Mr. and Mrs. Arnold Burrows, son Myron and daughter Ruth spent a couple of days this week in Flint and Bay City.

Mrs. John Charlefour returned yesterday from a few weeks in Eaton Rapids where she was visiting her son Colburn and family.

Mrs. Basmus Jorgenson returned home Sunday from a two weeks visit at the home of her daughter Mrs. Ralph Warner in Detroit.

Mr. and Mrs. Frank Smith and son Casper of Flint visited Mrs. Smith's brothers, William and James McNeven and their families over the week end.

An anthem and a quartet at the morning service and a quartet at the evening service is the program of the choir at Michelson Memorial church next Sunday.

Your attention is called to the 1c sale advertisement of Mac & Gidley that appears on another page of this paper. Read it over, and then stock up for future use.

The Mercy Hospital Aid Society will meet next Thursday afternoon, Nov. 14, at the home of Mrs. Marius Hanson. Mrs. Hanson will be assisted by Mrs. Charles Tromble and Mrs. Louis Heribson.

A chimney burning out at the Albert Hoffman home Tuesday afternoon called out the fire department. The house was owned by A. J. Nelson and as a result of the fire will need a new chimney and repairs to the roof.

Mrs. Clair Smith and little daughter Betty Jane of Lansing are visiting at the home of her parents, Mr. and Mrs. James McNeven for a few weeks. Mr. Smith accompanied his family here going farther north on a fishing trip.

Members of the Thomas Cassidy family enjoyed a happy family reunion last Sunday at their home. Besides those living in Grayling, there were present from out of the city Mrs. Victor Thelon, Miss Margaret Cassidy, Grand Rapids, and Sister Mary Pancratia and Mrs. Henry Ahman of Saginaw.

The Epworth League held their regular monthly social gathering Monday evening at the Michelson Memorial church. There were 30 present and Alton Jarmin, the fourth vice-president was in charge. Last week the League held a cabinet meeting at the parsonage at which business matters for the coming quarter were discussed. A pot luck supper was served before the meeting.

Another house painting job that we wish to call attention to is that of Joseph Smith next to the Jappe Smith gas station. The best of paint and oils and honest, first class workmanship is what we put into our work. If you are planning to have any painting done, consult us. Just like all our patrons you will be more than satisfied and pleased. The Geo. McCullough and O. P. Schumann residences also are well known residences we painted. Roby & O'Berg, painters.

Mrs. Axel Larson entertained her club last Thursday afternoon when a special meeting was held. The club elected their officers as follow: President, Mrs. LeRoy Scott, vice Pres., Mrs. Russell Vallad; Sec-Treas., Mrs. William Laurant. Prizes were won by Mrs. Neal McDaniels, and Mrs. Chas. Harvey won the penny prize. Mrs. Larson and committee served lunch on small tables that were arranged throughout the house. The Club will meet with Mrs. Herbert Stephan this Thursday.

Will Hoffman is the envy of just about every other young boy in town as he won the guessing contest at the Hanson Hardware and won a fine new BB gun as a reward. The problem was to guess the number of screws in a glass container. Saturday morning at 10 o'clock about 150 youngsters gathered at the hardware store to witness the count. The jar contained 313 screws and Will's guess was 315. A very close guess, indeed. The contest created a lot of interest and excitement and it kept the clerks busy recording the guesses—but "Spike" says it was great sport to watch the interest of the lads. Hoffman walked off with the coveted prize and, for the day at least, was the envy of his friends.

Wednesday forenoon with Dr. Keyport, Dr. Clippert and Mrs. Gorman, school nurse in charge, 250 children received their first dose of toxic-antitoxin, as immunization against diphtheria which is being given at the school building. This fine response to the efforts of the local physicians and school nurse, no doubt is very much appreciated. Besides those of school age there were a large number of children of pre-school age, who were brought by their mothers for the purpose of receiving the toxic-antitoxin. To each less three hours to take care of the 250 present, Mrs. Wessinger, all seemed dose will be given and mothers are asked to please remember to bring the children at that time and between the hours of 8:00 and 11:00 o'clock.

Linoleum Lacquer
A pure water-white lacquer made especially for linoleums and floors. It is transparent and contracts with lino floor without cracking or peeling.

Its pure water-white transparency will NOT discolor the most delicate patterns.

Learn for yourself how good our baked goods are, and then you will no longer spend the time doing your own baking. Bread, pies, cakes, rolls, cookies, in fact, all sorts of baked goods, as good as you can bake yourself.

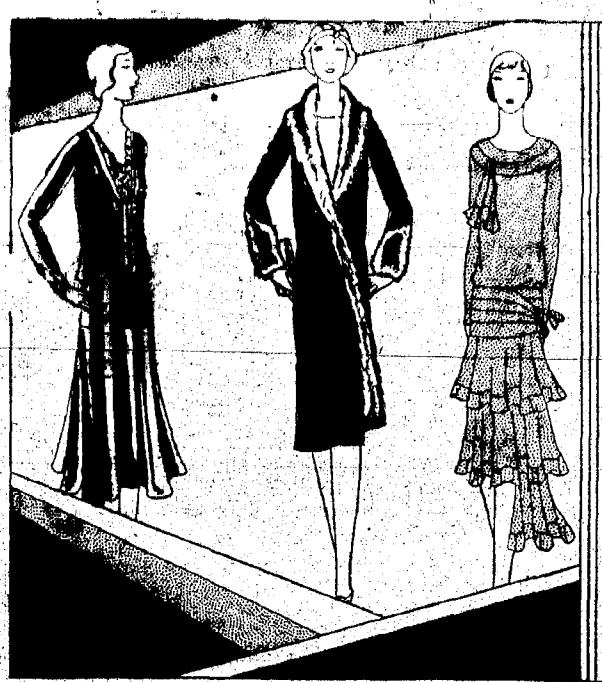

Come in any time after November 12th and see the beautiful dolls. Ask any questions you wish about the contest, because we're glad to have you do so.

The Texall Store

These Dolls are valued from \$2⁰⁰ up to \$18⁰⁰

We are going to give them to the fifteen little girls receiving the largest number of votes between November 12th and 10 o'clock Tuesday evening, December 24th. The awards will be made Christmas morning at 10 o'clock.

For each penny spent at our store during the period stated above, each customer will be entitled to a vote. Ask all your friends to write your name on the ballot before they put it into the Ballot Box in our store.

CONDITIONS

- No girl over 12 years old may be entered.
- Only one nomination blank to be placed to the credit of each contestant.
- Any piece of paper may be used as a ballot. Every ballot must be stamped by the proprietor, or one of our sales force, before being deposited in the Ballot Box.
- No contestant shall solicit votes or customers while in the store. No Ballot Blanks to be taken from the store.
- In the event of a tie for any prize offered, a prize identical with that tied for will be awarded to each tying contestant.
- Any Ballots showing traces of any changes in number of votes marked will be destroyed without being counted.

Come in any time after November 12th and see the beautiful dolls. Ask any questions you wish about the contest, because we're glad to have you do so.

THE REPORT CARD

(Continued from Page 1)
cil will be as big a success as any other school in the state.

Grayling vs. Alpena

Word has just arrived that the Grayling debaters will meet their opponents at Alpena on Friday evening, November the 15th. Our team will have the negative side of the question, "Resolved that a Judge or board of Judges should be substituted for the jury in all the trials in the state, in the municipal courts of Michigan." Two good teams are being put into the field this year and hopes are high that we will come through victorious over Alpena.

Interclass Tournament
Freshman boys are champs! Last Monday after school the interclass basketball tournament started with the seventh and eighth grades. The eighth grade won, the score being 21-6.

After that game was completed the Seniors and Freshies played. Both classes had roosters out, regular friendly enemies. The Freshmen won by 7 points with a score of 17-10.

Tuesday at 4:00 the Soph. and Juniors played, the Juniors winning 15-9. The second game that day was played by the Freshies and eighth graders. The Ninth grade won a seemingly easy game—26-9.

Wednesday night the Freshies and Juniors played for the championship. Yeh, Freshmen! What a score! 26-8. Thus ended the interclass tournament of 1929.

Jokes
Miss Lewis—Charles, name five animals that live in the north.

Toddy T.—Reindeer, Walrus, and three polar bears.

Marshall Sisco—I'd like to have you make a painting of me, but \$200 is too much.

Portrait Painter—Well, if you only

want to pay \$100 I will have the painting look more like you.

Miss Lewis—Kenneth, find the state of Mississippi on the map.

Kenneth H.—Sorry, Ma'm, it ain't showin' now, they're havin' a flood.

Personals

Ernest Lozon has resumed his studies in Grayling High.

Keith Wheeler was a visitor in school the latter part of the week.

Mary and Alice Mahncke spent the week end in Detroit.

Miss Hunter was in Lansing over the week end attending the homecoming at M.S.C.

Miss Lewis visited in Gaylord over the week end.

Elsie Johnson, Grace Parker, Margaret Warren, Elizabeth Matson, Anabel Harris, Mary Mahncke, Helen Lietz, and Clara Bugby are assisting Mrs. Gorman during the Toxin-untoxin clinic.

The Girl Scouts are contemplating a basketball team under the leadership of Miss Hunter who will act as coach.

The Science class held a contest last week in the form of an essay, the subject being "The Life and Works of Thomas Edison". Saimi Wallace won, having the best essay, with Elaine McDonnell second. A great many fine essays were turned in on this subject.

CARD OF THANKS

We wish to thank our friends and neighbors for their kindness and help at the time of our father's death.
Mr. and Mrs. W. H. Fairbotham,

ONE SALE

**Thursday, Friday and Saturday
November 7-8-9, 1929**

A Profit-Sharing Method of Advertising

This sale has been developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you two full size packages of high quality merchandise for the price of one, plus one cent. It costs money to get new customers, but the sacrifice in profit is justified, because we know the goods will please you.
